About Me

I am seeking a job in the hydroponic growing industry.

I have completed an internationally recognised Hydroponics course.

I am the owner of a hydroponic business that manufactures hydroponic systems and kits.

Through my studies at CPUT I have gained chemistry and laboratory skills and knowledge.

Personal Skills

- Excellent work ethic
- Communication skills
- Enthusiasm
- Teamwork
- Critical thinking
- Attention to detail
- Planning and organisational skills
- Kind and friendly
- Computer Skills :
 - All Microsoft programs
 - Sketchup 3D modelling
 - Photography and photo editing
 - Website creation and management

Work Experience

Home Hydroponics

(Nov 2020-Present)

Owner
Full Time

- Starting a business
- Designing and manufacturing hydroponic systems and products.
- Servicing and repairing systems
- Organising trade discounts
- Logo and label design
- Website creation and management
- Marketing and advertising
- Photography and editing
- Social media content management
- Sales (online and at Green Drop Farms grow shop)
- Quotes, invoices and receipts
- Customer assistance and advice
- Stock taking
- Admin
- Accounting
- Quotes, invoices and receipts
- Deliveries
- Setting up demo models with plants

Beans About Coffee

(Aug 2019-Jul 2020)

Assistant Kitchen
Manager
Full Time

- Running the kitchen
- Stand-in head chef
- Ingredient planning and preparation
- Stocktaking
- Ensuring food quality

- Ensuring health and safety standards
- Stand-in waiter

House Of Fame

(2012-2018)

Acting
Part time

- Action acting
- Extras acting
- Television series, adverts and movies

Education

Short Course

ACS Distance Education

- **Certificate of Completion**
Hydroponics 101
(Aug 2020-Nov2020)

Tertiary Education

Cape Peninsular University of
Technology

- **BTech Environmental Management**
(2013 – 2014)
- **BTech Chemical Engineering**
(2011 – 2012)

National Senior Certificate

- SACS, 2009

Other Information

- **First Team Rowing**
5 National Gold Medals, including
SA Champs.
33 Provincial Gold Medals
(Rowing requires extreme physical
and mental strength and teamwork)
- **My hobbies and interests** include
traveling, hiking, running, growing
fruit and vegetables, sharing my
growing experiences and teaching
others about hydroponics, designing
and building hydroponic systems,
drawing, 3D modelling and design
on Sketchup.

Practical Hydroponic Skills

- Six years of personal experience growing a wide range of crops hydroponically; indoors, outdoors and in greenhouses
- Designing, building, operating and repairing hydroponic systems and small greenhouses
- Seed and clone propagation
- Preparing all growing mediums
- Nutrient solution, pH and EC management
- Diagnosing and treating nutrient deficiencies
- Monitoring and adjusting light and VPD
- Identifying and treating pests and plant diseases
- Pruning and training crops
- Harvesting
- Maintaining a clean, sterile environment and equipment
- Laboratory and chemical engineering knowledge, skills and safety
- Understanding of plant biology and chemistry
- Conducting hydroponic experiments
- Creating grow journals and tabulating data points and stats on Excel
- Hydroponic research and database formation
- **Visit hydro2warner to follow my hydroponic growing experiences on Instagram**
