# KRISZTINA GABOR

---

## PROFILE

Resilient and dedicated to environmental efforts, embodies a forward way of thinking, and learns through a range of perspectives. Demonstrates success through growth and possesses the highest level of professional and personal standards. Current objective is to utilize skills in a position that successfully leads to a regenerative environment—urban development, sustainable food systems, improving health and defending all natural resources.

## EXPERIENCE

*ENVIRONMENTAL CONSULTANT, ALPHA GLOBAL PARTNERS; REMOTE – OCT. 2019-APR. 2020*

Position involved managing a variety of future projects in American Samoa. Delivered sustainable goals and worked towards increasing local development. Prepared monthly reports to ensure sustainability, wrote clear & concise risk assessments, project proposals with supportive arguments & solutions, and researched grant applications.

*NYC DATE NITE MARKETING & RESEARCH INTERN; NEW YORK, NY – JAN. 2020-MAR. 2020*

Worked for Alexis Wolfe of NYC Date Nite blog. Researched the food and agriculture industry, local restaurants, date activities for her audience and possible sponsorships.

*STUDENT RESEARCHER, FRANKLIN & MARSHALL; DENVER, CO – JAN. 2019*

Researched the processes of exploration for oil and gas, leasing mineral rights, fracking and completion of wells, environmental issues and regulations, business structure, electricity production and alternatives.

*STUDENT ASSOCIATE, FRANKLIN & MARSHALL; LANCASTER, PA – SPRING 2018*

Assisted local officials to create a Natural Resources Inventory Proposal for the City of Lancaster.

*VOLUNTEER, STUDENT CONSERVATION ASSOCIATION; ALASKA & COLORADO – 2013-2014*

Part of a team of local experts and National Park Service crew to repair damaged trails, build new trails, remove boulders, and build check steps

## EDUCATION

*FRANKLIN & MARSHALL COLLEGE – ENVIRONMENTAL STUDIES, JAN. 2016-DEC. 2018*

Courses - Geology: Earth, Environment & Humanity; Petroleum & Future of Energy; Ecology: Food & Agriculture; Biology; Environment & Human Values; Environmental Policy; Environmental Problems; Geology: History of the Earth; Economic Principles; Urban Experience; Environmental Resources & GIS
