

SAYAM BHATIA'S RESUMÉ

WORK HISTORY

Company	Designation	CTC	Tenure
Future Farms	Head of Agronomy	2.4 Lakhs/year + 0.25% shares	16/11/17 to ~
Bison Agro Farms	Operations Head	2.4 Lakhs/year	15/07/16 to 26/10/17

ROLES AND RESPONSIBILITIES

Future Farms:

- Standardize optimal production methods of several leafy greens.
- Provide Agronomy support for Client Farms
- Design Hydroponic Farms for Clients and create BOQ's.
- Supervise the Hydroponic Farm Installation at Client's Site.

Bison Agro Farms:

- Forecast quarterly requirement and create contracts with farmers for exclusive vegetable production
- Procurement of vegetables against daily order, ensuring minimum cost and minimum shortfall to client.
- Setting up of the Pack House operation files which help keep track of inventory, stock flow and sales and also help analyze business.
- Plan and supervise the daily operations by coordinating with the finance, procurement, packing, and logistics team.
- Maintaining traceability files for produce.
- Manage the production of vegetables in the captive farm of 3 acres.

TRAINING EXPERIENCE

- 1 week orientation under Rijk Zwaan, India, in Protected Cultivation.
- A 6 months experiential learning in the Nursery Management and Protected Cultivation of cut flowers and hybrid vegetables.
- Standardized a micronutrient spray mixture for Okra for my UG project, which sharpened my research and analyzing skills.
- A 2 months Internship at Nikki Bonsai Garden, Nagercoil, developed my training, pruning and wiring skills, and gave me an eye for the art.
- A 20 days Village Stay Programme in Coimbatore, which gave me an opportunity to extend my knowledge and understand the practical problems faced by farmers.
